

Welcome to Live Learning!

It's great to see you all but it's really important that we look at some rules before we start.

This is a chance for you to see your friends and your new class teacher from September. You won't be able to chat to each other because only one person can speak at once but we do want you to have a chance to speak. Find out on the next page what to do when you want to say something.....

How to let us know you want to say something.

You might see a symbol like this on a screen. This means that you are muted (we can't hear what you are saying). This is so we can clearly hear the person who is speaking.

If you want to say something put your hand up and your teacher will unmute you (they will switch your microphone on). We will try and give everyone a chance to speak but don't worry if you don't get chosen, you will get chance on another day.

Remember....

Everyone in the group can hear what you say so don't say anything you don't want everyone to know about or to hear.

Just like being at school we expect good behaviour, this is a time for us to enjoy getting together safely.

Finally, don't forget to bring your smile!

You might be a bit nervous seeing everyone in this new way . Don't worry if you don't say anything at first, we are just happy to see everyone!

We hope you have fun!
