

Zoom Video Meetings Instructions

Step 1 - Firstly, download Zoom to your device as follows:

-i-phone/pad; Type in Zoom Mobile in the app store, search and select the Zoom Cloud Meeting (as per the picture below).

-For Android Phones/tablets; type Zoom Mobile into the play store, search and select Zoom Cloud Meetings (as per the picture below).

-For Laptop/PC desktops type the following into your web-browser:

<https://zoom.us/meetings> - *You will need a webcam facility for this to work on a laptop/PC.*

STEP 2 for Parents

How to Join a Meeting

- Click on the link you will have received in an email meeting invitation. You may need to Download Zoom if not already done so by following Step 1.
- If the host has not already started the meeting when you join, you may see a message that says 'The host hasn't started the meeting'.
- Once the host starts the meeting, a Zoom window will appear where you can then click the join button. If you wish to mute at any point during the meeting you can do so by clicking the microphone icon button at the bottom left of your screen.
