

St Andrew's C.E. Primary School
Medical Care Policy
for supporting all pupils including those with medical conditions

Mission Statement

We believe that St. Andrew's C.E. Primary School exists to provide life's main opportunities for our children guided by and learning from the example and teaching of Jesus Christ.

These opportunities come from an ethos and curriculum that provide maximum learning experiences for each individual child, no matter what their particular learning abilities may be.

We will aspire to a curriculum which results in the enjoyment of learning, children who feel good about themselves and in which everyone can be good at something. We will encourage pupils to show tolerance and respect for each other, set themselves high standards, to take pride in their work and do their best.

We will provide curriculum enrichment activities including first hand experiences, creative opportunities, visits and visitors.

We will offer every child the chance to achieve as much as they are able.

We will achieve high standards for all children, giving them secure foundations for future learning and success in life.

Growing in Faith, Hope and Love

Overview

This school places the highest importance on the care, safety, well-being and health of its pupils and staff especially those with known medical conditions. This policy had been written to give clear guidelines about the appropriate action to be taken where a pupil is admitted to school with an identified medical condition or when any child or adult is unwell or has an accident. It should be read in conjunction with the Medicines Policy, the First Aid Policy, Intimate care Policy and Educational Visits Policy and the DfE guidance 'Supporting Pupils at school with Medical Conditions' August 2017 (<https://www.gov.uk/government/publications/supporting-pupils-at-school-with-medical-conditions--3>)

Objectives

1. To ensure that good, effective and appropriate care is provided when a child is admitted to school with an identified medical condition or when any child or adult is unwell or has an accident in school or on a school occasion.
2. To ensure that the DfE guidance 'Supporting pupils at school with medical conditions' (Aug 2017) is known understood and followed and to ensure that

appropriate training is provided for all staff and particularly for those with the care of pupils with medical conditions in line with DfE guidance (Dec 2015).

Strategies

1. Where a pupil is admitted to school with a medical condition, the school will liaise with parents, carers, relevant medical, clinical and other appropriate authorities to ensure that the child's individual needs are met and that they are given full access to the education provided for all pupils.
2. The headteacher will make teachers and others who care for a pupil with a medical condition, aware of the medical condition and its needs and levels of care and support that are to be provided.
3. Appropriate training will be provided for all staff and particularly for those with the care of pupils with medical conditions in line with DfE guidance (Aug 2017).
4. If any pupil including those with known medical conditions, is unwell in class or has an accident in school, the headteacher and/or first aider (or if the situation occurs out of school – the teacher in charge) will assess the pupil and decide on the appropriate action which may include giving care and first aid or calling for an emergency ambulance if a pupil is seriously unwell or injured or their known medical condition is causing concern.
5. In the event of a serious medical emergency requiring hospital treatment, an ambulance should be called immediately and the patient should be cared for by staff until medical help arrives.
6. In the event of a child having an accident in school, staff should always seek the help and support of a Paediatric Trained First Aider who will then treat the child appropriately.
7. A pupil's parents will be contacted as soon as possible, whenever there is a medical emergency or if a pupil receives first aid treatment or has an accident. Where appropriate, the school will ask the parent/guardian to attend to support the pupil. Parents must always be notified if a child has a head injury, however minor it may appear at the time.
8. If in an accident or medical emergency where bodily fluids need clearing up, the site staff will be called to deal with the matter.
9. The records for recording accidents and other medical emergencies must be completed by the member of staff who is present at the scene of an accident or medical emergency.
10. If the injured person is a member of staff, they are responsible themselves for completing the appropriate records.

11. If an accident or medical emergency occurs off the school premises the member of staff present should complete the Accident Form as soon as possible after returning to School.

12. The teacher in charge of any outing off the school premises has the responsibility for being acquainted with any specific medical needs or conditions of the pupils in his/her charge and have appropriate training in how to care for the child's subsequent medical needs.

13. Risk assessments must be carried out for all pupils especially those with known medical conditions on each trip. Prior to educational trips and visits, parents will be asked to complete a Consent Form and provision will be made to meet all risks and cover medical needs.

14. In the event that an accident occurs out of school and the family cannot be contacted, at least one member of staff should accompany the person to hospital. In no circumstances should any students be left unattended as a result of a member of staff accompanying the injured person to hospital; in this instance, an ambulance should be called.

15. Staff planning educational visits or journeys, should consider the level of First Aid cover that will be required and the specific support needed by pupils with known medical conditions.

16. A designated teacher will be given overall responsibility for the care of pupils with known and identified medical conditions.

17. A designated governor will be nominated to oversee this policy and to report annually to the governing body on its effectiveness

18. Emergency Asthma inhalers are available in school in case of emergency and disposed of as appropriate when required. The protocol for their use can be referenced on the school Medicines Policy.

Conclusion

This policy will ensure that where a child has a medical condition or where a child or adult is unwell or has an accident in school or on a school occasion, they are appropriately supported and cared for. It will ensure that the school does all that it reasonably can to give all pupils including those with a known medical condition full access to the education provided.

Adopted by the Governing Body March 2024

To be reviewed March 2025
